About Quantonation

Quantonation is the world's largest venture capital fund dedicated to deep physics and quantum technologies. The firm invests in technologies transforming fields including quantum computing, photonic computing, ultra-precise sensing and more by supporting startups as they turn breakthrough science into commercially available products.

Quantonation is headquartered in Paris and Dallas, with investments across Europe, North America and Asia-Pacific.

Leadership

Christophe Jurczak

Co-Founder & Managing Partner

Christophe Jurczak is Co-Founder and Managing Partner of Quantonation, where he has invested in quantum and deep physics companies since 2018.

He was a Co-Founder and former board member of Pasqal, which became Quantonation's first portfolio company to list on Nasdaq in 2026.

He serves or has served on the boards of companies including Diracq, Nord Quantique, memQ, PINC Technologies, Vertical Compute, Pioniq and Qubit Pharmaceuticals, and is an active contributor to the development of the global quantum technology ecosystem.

Olivier Tonneau

Co-Founder & Managing Partner

Olivier Tonneau is Co-Founder and Managing Partner at Quantonation, the world's largest venture capital fund dedicated to quantum technologies.

A graduate of ESSEC Business School, Olivier spent 10 years as a management consultant at Kearney before joining French entrepreneur Charles Beigbeder as CEO of his holding company, Gravitation.

Since 2018, Olivier has been developing Quantonation alongside Christophe Jurczak. He serves on the boards of Multiverse Computing, Weling, QBlox, Yaquomo, CryptoNext Security, VeriQloud, KETS Quantum Security, QC Design, The Quantum Launchpad and the Quantum Industry Consortium (QuIC), the European quantum industry association.

In 2025, Olivier was selected for Class 28 of the Kauffman Fellows Program, a prestigious global leadership program for venture capital investors. He is also a member of the French Navy's citizen reserve.
